

APL 8000 Series

**Self-adhesive labels real time
Print & Apply System for
multiple panel labeling.**

APL 8000 is a self-adhesive labels real time Print & Apply System designed and produced fulfilling all requirements to obey EAN/UCC-128 Application Identification Standards and GS1 International pallet labeling recommendations.

Printing and application are carried out automatically and effectively turning into a high profitability equipment. Due to its flexibility easily adapts when variable data label printing and application is needed in half speed situations.

The APL8000 Series allows the integration of the printing engine you want, we offer complete printing freedom with the best print engines in the market: DATAMAX, SATO or ZEBRA, from 203 to 300 dpi.

Controlled by a PLC, APL8000 can easily be adapted to all Packaging lines using synchronisation and guided alarm signals. Easily configurable due to its versatility can be connected to any information system: Windows NT, UNIX AS/400, PC, etc. and ERP environments.
